REMARKS

Claims 1-16 are pending in the Application.

In view of paragraph 7 of the 2/8/02 Office Action, new independent claims 10-14 have been added, corresponding respectively to claims 1 and 2; claims 1 and 4; claims 1 and 5; claims 6 and 7; and claims 6 and 8.

New claim 15 is similar to claim 1 and describes second spray nozzles at an angle of 10-80 degrees to first spray nozzles, as described at page 24, line 10 of the Application.

New claim 16 is similar to claim 6 and describes a method having a first and second sprays from a manifold oriented in different directions.

Turning now to the rejection of claim 1 under 35 U.S.C. §112 as being indefinite, the term "angle spray nozzle" is defined, for example, at page 21, lines 17-20. Consequently, Applicant
